IDS WORKSHOP, Nice, 12-14 November 2008

The International DORIS Service (IDS) workshop will be held on **November 12-14, 2008**. The purpose of this workshop is to get representatives from all IDS groups together to share information about the network, data, products, developments and results in all aspects of DORIS. The meeting is a platform for discussion and coordination of future activities. A complete program will be prepared later on by the Scientific Committee chairman (F. Lemoine) according to the submitted abstracts.

All IDS contributors are invited to submit a paper to the IDS workshop for presenting results in relation with topics such as:

- System: satellites, network, system improvements, new format, future missions
- IDS: status, analysis coordination
- stations coordinates, EOP, ITRF
- POD
- new DORIS applications & products.

IDS Analysis centers are especially encouraged to submit papers describing the status of their processing, and plans for future improvements.

All information regarding this IDS workshop (program, abstract submission...) will be provided and updated via this web site.
